Welcome to Avenidas Village

Be Active in Your Community... Become a Part of Your Neighborhood Network... Thrive in Your Home

Avenidas Village is a membership program offered through the non-profit agency Avenidas. It's a "virtual" community network for adults 55+ that offers practical help, resources and social connections to keep you active, confident and independent in your own home and neighborhood.

More and more people plan to stay in their homes as long as possible after retirement...Avenidas Village was designed to make this easier for you!

Where do you want to be in the years after you retire?

According to a 2018 AARP survey, 75% of adults over 50 prefer to remain in their current home for as long as possible. Surrounded by neighbors and the community you know, you can stay in control of your daily schedule and choices. You can save money compared to making the move to a long term residential community, and you may even be able to keep your home to pass along to your children.

However, over time, there are new challenges to face. Your adult children may have moved across the state--or the country. It may become more difficult to maintain your home on your own. You or your spouse may need some extra help or care due to health issues. Maybe you've lost a spouse or some of the important people in your social network. Situations like these are often the catalyst for people to start to question whether "aging in place" is really an option.

Welcome to Brisbane Village Helping Hands

A group of Brisbane residents came together to create a grass roots all-volunteer community organization whose mission is to help residents "age in place" and stay connected to their community here in town. The Village provides a way for older residents who want to remain in their homes to request help, and for community volunteers to lend a hand. In other words, it's really about neighbors helping neighbors.

Brisbane Village Helping Hands is one of more than 100 Villages across the country designed to help seniors stay in their homes. AARP research shows that 89 percent of Americans would like to live in their current homes as long as possible – and that rose to 95 percent when people over the age of 75 were asked the question.

We started small in March 2016 and have grown over time as more volunteers and older Brisbane residents have become aware of the Village and joined our efforts. As of March 2018 there are 47 members, and 49 volunteers who have helped members with more than 215 requests for assistance.

Join our campaign for a safe California Street:

Some streets aren't just dangerous for pedestrians; some are deadly. On February 26th the life of yet another elder was needlessly taken on California Street. **California, from 18th Avenue to Arguello – has been identified by the City as a high-injury street.** Yet it's one of the few high-injury streets in The Richmond District that lacks a comprehensive plan to fix its dangerous conditions.

Read our statement [here](#) regarding the passing of Zhao Guan, a senior who was killed while crossing California Street at 18th Avenue on her way to babysit her grandchildren on February 26th. Then, join our campaign to hold the City accountable and demand the change we need to see. Enough is enough. **Fix California Street NOW.**

Greater Niles Village (GNV) is a vibrant community of neighbors along Mission Boulevard. We share our skills and support to navigate the challenges and opportunities of aging. Greater Niles Villagers believe a better experience of aging is possible when we can grow with and rely on each other.

NOT A PLACE, BUT AN IDEA

Villages are dedicated to positively impacting health and interdependence by assisting members to form social networks and secure practical assistance to age safely and successfully in their own communities. Like the 350 Villages across the US, GNV's members enjoy stronger community connections, less isolation, increased independence and enhanced purpose of life. In Villages, older adults are empowered to remain in charge of their lives.

Welcome to the North County Village!

What is a Village?

"The Village community model combines aging in place with the type of interdependent living that helps make aging alone for longer possible. It's an innovative, DIY [Do It Yourself] take on what life in traditional American villages used to offer - trusted relationships with neighbors and the wider community. A nonprofit, grassroots solution that's governed by its members, villages have become the way of life for thousands of urban and suburban seniors across the US. The Village movement is now over 350 Villages strong, with 230 Villages that are operational and 130 in development." – Senior Planet

Who We Are

San Francisco Village is a community organization led by older adults who share their skills, support, and expertise with each other to navigate the challenges and opportunities of aging.

At San Francisco Village, we believe a better experience of aging is possible when we can grow with and rely on each other. Every day, our members come together to provide support services and create new possibilities for what's next when we age. When we unite as peers, we create a purposeful and powerful space for learning, laughter, and courage as we take on the future.

We are a group of local residents with the mission of helping each other to age in place. We do this by providing access to support services that help people engage in community activities and continue to live independently. We are a membership-based 501(c)(3) nonprofit.

We started in 2015 as **Sequoia Village**, serving members in Belmont, San Carlos and Redwood City, including Redwood Shores. In late 2016 we launched **Mid Peninsula Village** to serve the communities of San Mateo, Burlingame and Hillsborough. As we grow we hope to eventually create villages serving other parts of San Mateo County.

Villages operate nationwide. You can connect with a Village in your area through the [Village To Village Network](#). Apply now! Please fill out our [Membership Application](#) and send it to Villages of San Mateo County, P.O. Box 813, San Carlos, CA 94070, or scan and email it to info@villagesofsmc.org.

A large photograph of an elderly man with white hair, wearing a light-colored baseball cap and a dark shirt, smiling broadly. The background is slightly blurred, showing green foliage.

At Village Movement California we believe in the power of community to achieve society-wide change in the way we age.
